## RUN BACKGROUND CHECK

- After the interview the hiring team manager will need to change the status from interviewing to Run Background Check to start the background check process.
- The hiring manager will no longer need to send an email to Payroll to run the background. Once the status has been changed to Run Background Check, payroll will get an automated email to start the background process. You will receive an email that the background request was sent to the candidate. If you do not receive this email within 12 hours, contact Payroll.
- Scan the interview guide to payroll.

- You will be notified once your candidate has been approved for hire. Once they are approved for hire, you will need to contact them with a job offer and agree on a start date. Let them know that they will receive two emails from ADP that will allow them to register for ADP and complete their onboarding. Their onboarding should be completed prior to their start date. During this call find out their shirt size, preferred name for the name tag and if they have a rewards card. Email this information and their start date to Payroll.
- They cannot start unless their onboarding is complete. On their start date they must bring their ID so that you can complete the I9 through ADP (please see I9 FORM LIST OF ACCEPTABLE DOCUMENTS). Complete the I9 first thing when they arrive. The documents must be original (certified copy if birth certificate) and unexpired. The I9 must be completed by you before they begin work.
